

MAC808 Compact and Versatile Music System for Office, Workshop or at Home.

MAC808 an extra dimension in the MusicAll Multiroom Audio product range !

The Dateq team has developed an “All-in-One” unit that combines all necessary functions for a 12-way Matrix, 8-Power Amplifiers each 25Watts/8 Ohms.

Besides the 4 pcs FM-Tuners, there are 8 audio inputs 0-dB level for signals from external sources as CD player, TV sound, Satellite receiver or playing Computers.

For Paging purposes, there is a paging input, two groups can be configured.

Features:

- * The MAC808 can work stand alone, no further equipment needed. Simple cabling to the Loudspeakers and the Wall mounted MRC controllers is all it needs.
- * Smart looking Control panels for Wall mounting gives access to Channel and Volume selection.
- * Attractive Web-application for configuring the parameters en also a user-application.
- * Built in 4 pcs FM-Tuners 88 – 108 Mhz, with 50 Presets and RDS readout.
- * Extra Audio inputs to be configured for up to 4 Stereo inputs to 8x Mono inputs.
- * Matrix system with 12 inputs and 8 outputs mono or any mix of Stereo and Mono channels.
- * Each output channel is equipped with a 3-band equalizer for optimal Sound reproduction.
- * Output power of 25W per channel on a 6/8 Ohm loudspeaker.
- * Extra Audio 0dB outputs on channels 5 to 8 for additional e.g. 100V Power Amplifiers.
- * Logic inputs for ‘Paging-1’, ‘Paging-2’, or ‘Total Mute’.
- * Each FM-tuner can be assigned to a Room/Zone, this enables a scrollist with many Radio Stations. All Radio stations that are in the Preset list can be configured into the scrollijst.
- ** Outputs can be assigned in Group-Combination. This is very suitable if not all outputs are used, the unused outputs can be combined with the Room, where more power and loudspeakers are needed. Very suitable for the Party room.

MAC808 is exactly what you need at your office, in the workshop, hospitals, retirement home, Dentals etc. Everywhere where a compact installation is used for Listening to music, Background, Music for Masking purposes. Paging makes the system complete. The MAC808 comes standard with 4 pcs MRC white Wall mounted control panels. Wall panels have LCD display with backlight and are also available in the color Grey. Suggested retail price for the MAC808 incl 4 Wall panels is EUR 1975 excl. VAT.

On the backside are all connectors for the 8 Room-Loudspeakers and the 8 Wall Control Panels. The Audio inputs are gold plated Cinch sockets for max 8 mono inputs or max 4 Stereo inputs. For Zones 5, 6, 7 and 8 is a 0dB cinch socket to feed additional Amplifiers if more power is needed. The Fan is temperature controlled to avoid unnecessary noise and dust collection.
